SAFE SPORT FORUM

The harassment and abuse of athletes and the lack of administrative action in these instances have been highlighted in recent cases in the media and the courts.

The long-term negative ramifications for athletes and sport at all levels is a significant issue that needs discourse and action.

That's where we come in.

The Centre for Sport Capacity's 2021 Forum, Athletes First: The Promotion of Safe Sport in Canada will have an athlete-centered focus.

Topics for the virtual event will include:

- Athlete advocacy
- Governance & policy development
- Legal implications
- Coach education
